Hello,

what you have in your hands today is a basic overview of the **atlantis°** concept.

It is a baby! This baby doesn't know how to walk, how to express itself. It needs caring parents, a close family, supportive foster parents, a fun community, a loving environment to grow up in. However its genes already has the power to gestalt - to change the world.

The baby already knows it wants to grow up in a world of abundant *fllove* - of flow, flux of good energy, good feelable relationships, the flow of love. In a world where people resonate and think more in fllove than in lack, where the Ego is under control, where they can personally grow.

This is what **atlantis°** is about - Of building a world which can be used to create something with long term 'mehrwert' - of prime value - of empowering humankind.

If you are reading this, then I believe you have something to do with it. I also believe that we are connected, and that we have an "operational mission" on this planet to fulfil: To support the upgrade of humankind.

This baby and I need your support: Please go inside yourself and ask how you can help and follow your intuition.

Please feel free to reach out and contact me at any time.

Wishing you an interesting read and lots of *fllove*.

1 Introduction

1.1 The Initiative

atlantis° is about upgrading humanity to a new conscious awareness. Of the reality we breath in, of the culture we live, in how we create. Of wrapping the earth in a collective consciousness. It is an initiative to empower humanity, to support its development and enable a different type of growth on this planet.

1.2 This Brochure

1.2.1 WHAT IT CONTAINS

This brochure is a short overview of the **atlantis°** concept and some of its components. For more detailed information, see the documents below.

1.2.2 THE WHY

It is to give an overview of the components for discussions.

1.2.3 STATUS

atlantis° is in a state of development: This brochure reflects this state.

1.2.4 STYLE AND WHO IT IS FOR

The style used in this brochure is more of a technical, project language type. It is for individuals who are new to the concept, from different walks of life.

1.2.5 CHANGES

1.3 Symbols / Speak

Within this document words are used as a symbol for a thought, a concept, an idea. Due to the limitations of our language, some symbols have multiple meanings, with visual and perhaps "negative" emotional anchors. An example is the word "God" - For some it is the divine, for others it is an old man on a throne who throws people into hell. There are also concepts which the Egi - the chatter box within - also called the Ego or innervoice which is constantly on air -will not like. Depending on your cultural background, your religious upbringing, your education or experience, these concepts might cause the Egi to provoke a strong negative reaction within you. Please remember this whilst reading, to look past the symbol for the contextual meaning, to read the document from a neutral point of view without judgement, with equanimity. Follow your intuition or gut feelings.

2 About

2.1 What

atlantis° is the name for a collection of activities to support humankind in its growth for the next century. At its core is a mixture of renamed old concepts, new awareness shifting concepts, a different way of going forward in solving problems and the belief that humankind is being supported by a universal benevolent power.

It is a shift from the Ego driven, possessive world to an intuitive sharing world. This shift is already taking place today and **atlantis°** serves as a catalyst.

atlantis° does not know what is best for humanity i.e. how people should live in the future, or what society should or will be. What it is doing is to build an infrastructure - a set of services, knowhow, social networks - which can be used by people following their intuition to create a better future for all of us.

2.2 New Terms and Concepts

atlantis° builds on a collection of new terms and concepts. For example:

- A new definition for our awareness of the world around us in connection with our state of mind. **r1** is the Egi controlled state of lack and angst. **r2** is the intuitive abundance state. A person is either in **r1** or **r2**. An **r2** society has different values and needs than an **r1** society.
- Of the interplay between culture and identity which we call "indentiful".
- That humankind can actively do more to shift itself to a state of **r2**.

2.3 Its Origin

The key building block for the activities - the naming concept of **r°** - was born in January 2022. The idea of **atlantis°** took shape in September 2022. The DNA - the conceptual and associated documents - went "live" in November 2022.

3 The Why

There are many reasons as to why **atlantis°** is needed - for example the transition of society to a state of **r2**, different forms of living, networking. A couple of them are shown in the word cloud below. For more information check out the brochure *atlantis° - Why*. Details can be found in the *Other Documents* section.

4 Bringing Value

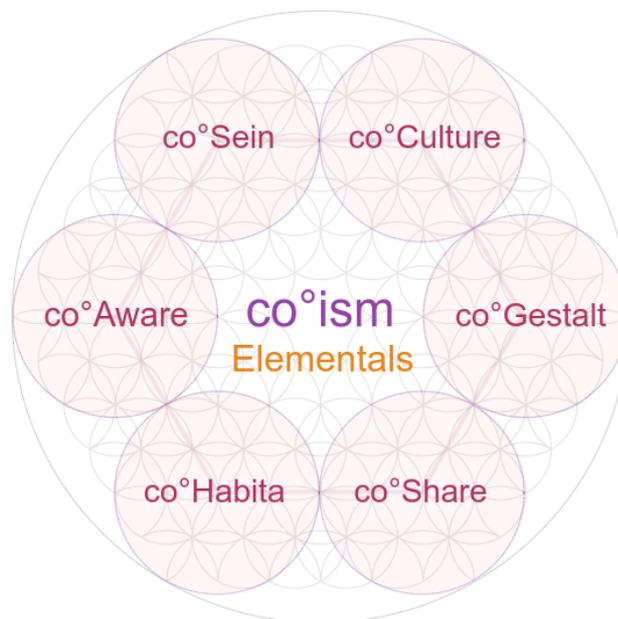

4.1 co°ism

The future for humankind is all about **co°ism** of co'operation, co'sharing, co'mmunicating, co'working, co'living, etc: Of creating value through our thoughts and actions. For the **atlantis°** Initiative, these value topics have been grouped together into the following value domains.

4.2 Value Domains

atlantis° has six primary domains where it is bringing value for humankind:

- About being (co°Sein)
- Culture - Of experiencing, living, belonging, identity (co°Culture)
- Of creating a better world through thought (co°Gestalt)
- Of sharing - communicating, exchange (co°Share)
- Of living, community (co°Habita)
- Being aware of the world, of realities, of shifting awareness (co°Aware)

4.3 The co°ism Framework

The value domains form a framework for discussions, for the definition of objectives. For more information check out the brochure *co°ism - Elementals*. Details can be found in the *Other Documents* section.

5 Our Objectives

5.1 Getting Going

As a starter for The Initiative the following key and major objectives have been defined.

5.2 Keys and Majors

KEY OBJECTIVES

The key objectives are:

- Shift people to r2
- Foster r2 communities
- Foster culture as prime ware
- Foster a human interconnected r2 world
- Gestalt via thought

MAJOR OBJECTIVES

The major objectives are:

Awareness of real reality:

- Spread the definition of r° - the terms $r1$ and $r2$ - for the conscious awareness of reality

Conscious hubs:

- Foster a mesh of conscious hubs across the planet via communities, get-togethers

Simpler communication:

- Foster a simpler English, common etiquette

Culture as prime ware:

- Foster the concept of culture for identity, growth

Conscious cultural communities:

- Foster habitation for $r2$ people

Cultural regions:

- Foster regions with their unique cultural identity

Human real universe:

- Foster a universe to experience life

Gestalt:

- Foster the use of thought for cleaning and creating

5.3 More Details

The objectives are specified in the separate document *atlantis^o - Objectives*. More details can be found in the *Other Documents* section.

6 Structure

6.1 The Core

atlantis° is built around *r°Rise* - a collection of activities to improve the conscious state of humankind.

This improved conscious state is simply called *r2*.

6.2 The General Concept

The structural concept of the The Initiative is that of a forest - an organic organism that is composed of a multitude of other organisms, each living from and supporting each other.

6.3 Kickstarting

The Initiative is being built on the conceptional awareness that society is migrating to a state of *r2* and that activities should be orientated towards supporting this transition. Until this conceptional awareness is more widely known The Initiative is being kickstart-ed with a collection of activities which support this cause.

6.4 The Organisation

Activities are bundled as services.

Services have their own name for identity reasons. This allows them to diversify : To grow globally, to offer more services, to grow their enduser community.

For compliance reasons, services are attached to a legal entity and where necessary have local offices in countries around the world.

6.5 The Face

r°Rise uses the online magazine **atlantis°Today** as its face for news.

6.6 Essence

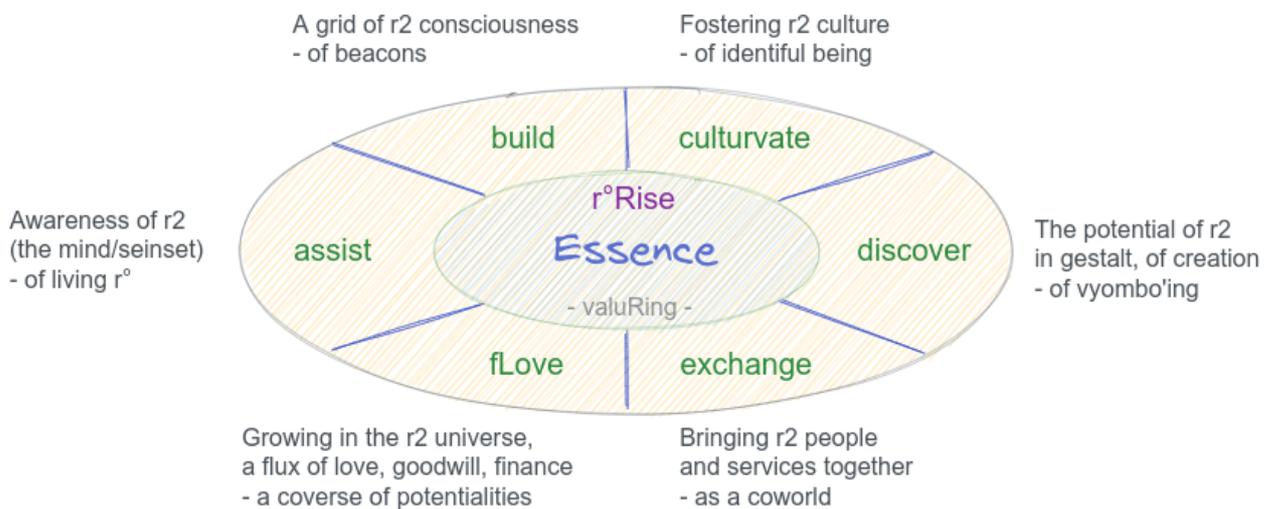

Activities supporting *The Essence* of *r°Rise* are bundled into 6 primary groups.

The groups have been formed using the *valuRing* question: "Where can we bring value?" - Where can we a) Assist, b) Build something, c) Cultur'vate something (with the emphasis on culture), d) Discover something, e) give value through Exchange (interaction), f) through Flove - through the flux of good energies, feelable positive relationships, financial energy, fostering trust / goodwill and *love* in all its flavours.

6.7 The Grouping

A graphical overview showing these groups is shown in the following picture.

- The "assist" activities are focused on the awareness of r2 via the product portfolio *r°Some*
- "build" is to build a grid of *beacons* across the planet
- "culturvate" is to focus on developing "culture", of fostering its growth within communities, of *identifil* being.
- to "discover" and bundle the gestalt potential within us all, bundled as *vyombo*,
- to foster "exchange" - bringing people and services together , creating a *coworld*,
- increasing the "flove" (flow, flux of energy, love) by creating a *coverse* of possibilities.

8 Rollout

8.1 Spreading the Word

To spread (i.e. to roll-out) the awareness of concepts, of supportive tools and services, a coarse rollout strategy is being developed and is flowing into the objectives.

8.2 Kickstarting

To kickstart **The Initiative** a collection of services are being started to fulfil key objectives.

8.3 Levering and integration

Many of the targets of **The Initiative** are being followed by other organisations around the globe. The purpose of **The Initiative** is to support synergy, visibility and convergence (i.e. bring objectives and applied energy together) where possible. It is to lever possibilities - see the Appendix *The Power* for a couple of ideas of what can be done.

Existing organisations with the same conceptual awareness will be integrated where possible.

9 Appendix

9.1 Activity Clusters

Insight

The atlantis° activities are primarily based on the r°Rise initiative.

The following diagrams give a brief insight into the r°Rise's clusters of activities.

For more information refer to the document *r°Rise - Core Directives*

The diagrams

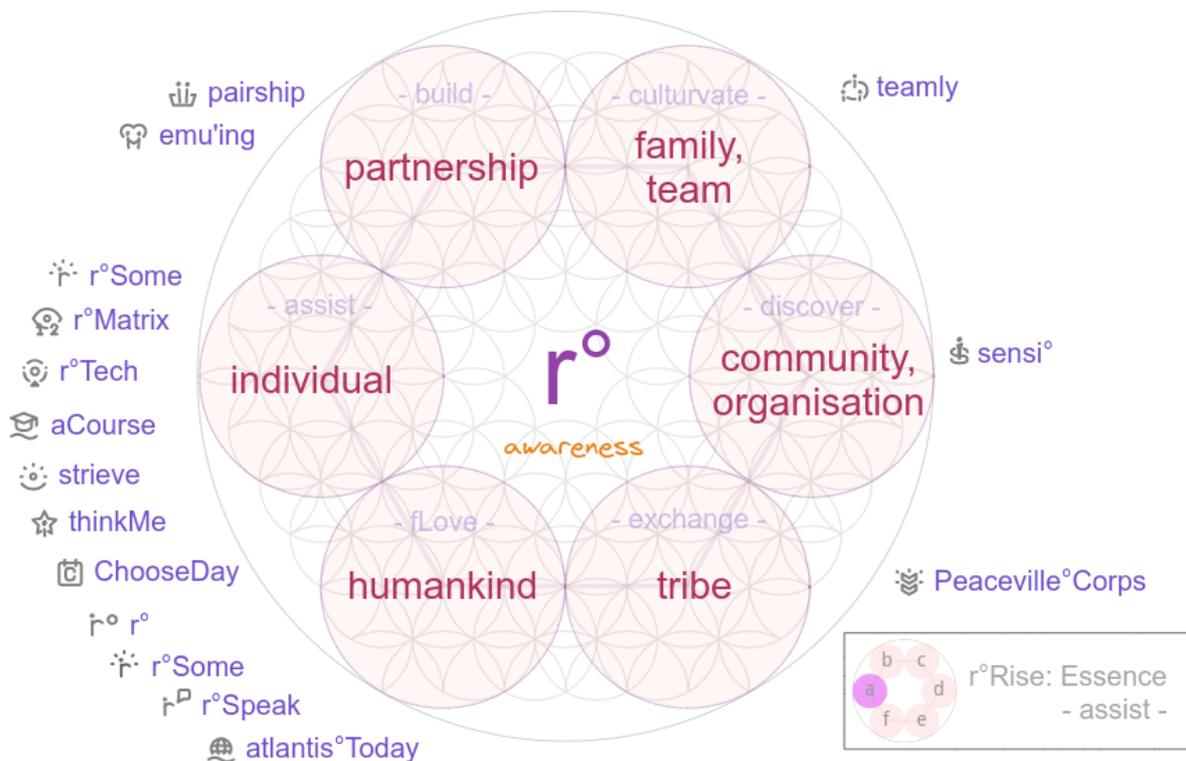

r°Rise can be viewed as a hierarchical structure and also as a multi-dimensional cellular structure, as each activity and group is connected with others on the same level as well as on other levels. To represent this multi-dimensional connectivity and cell structure we use hexagons and the *flower of life* symbol.

In the following diagrams, cluster of activities around a topic are shown as circles. Placed around the perimeter are some of the service initiatives needed to support these clusters.

Each initiative, in itself, can be an organisation, offering services across the world in several language, with its own user communities.

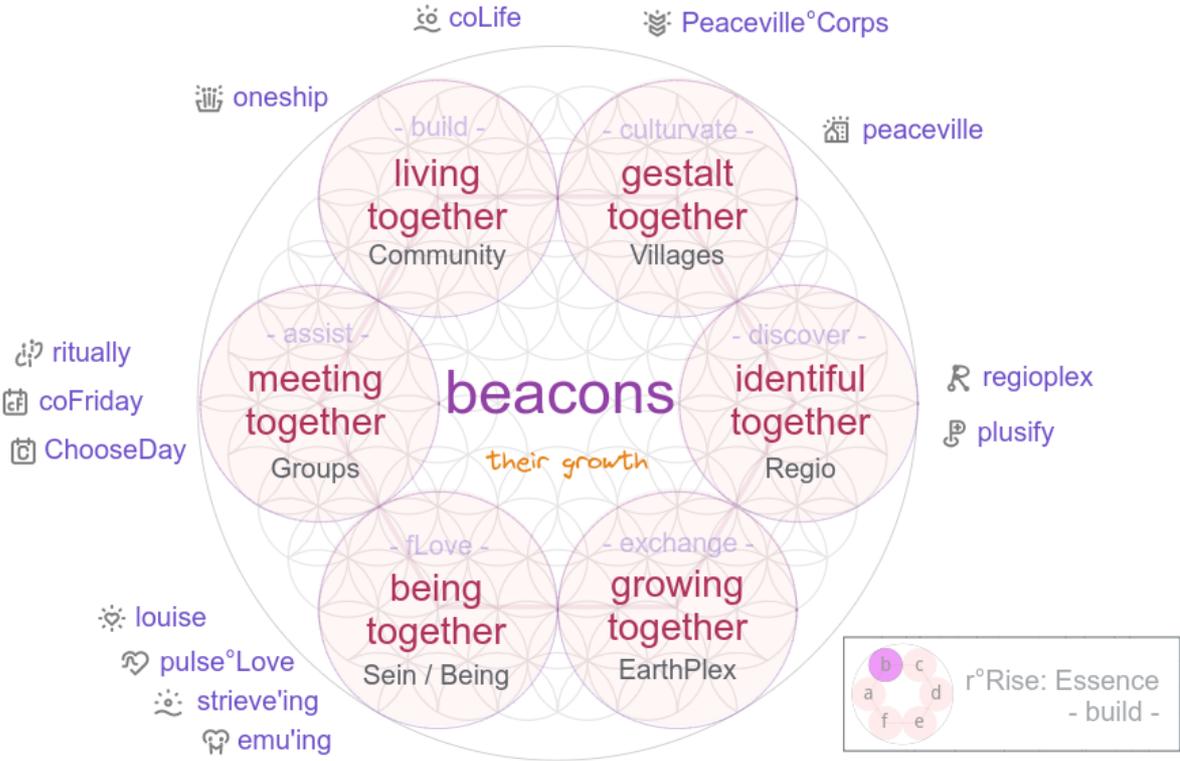

A. Assist group, r°

The r°rise activity cluster **Group r°**, is about assisting individuals and groups on their transition to r2.

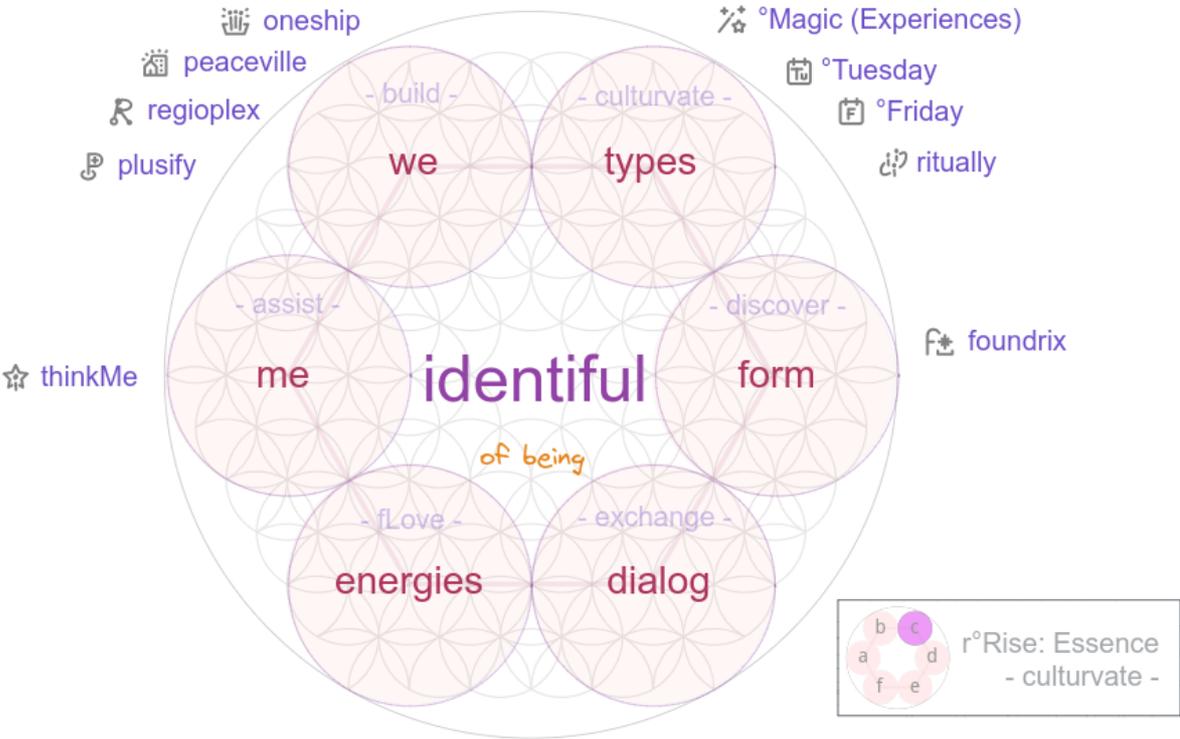

B. Build group. beacons

The r°Rise activity cluster **Group Beacons**, is focused on building a grid of beacons - gatherings of people who are more in r2 - across the planet.

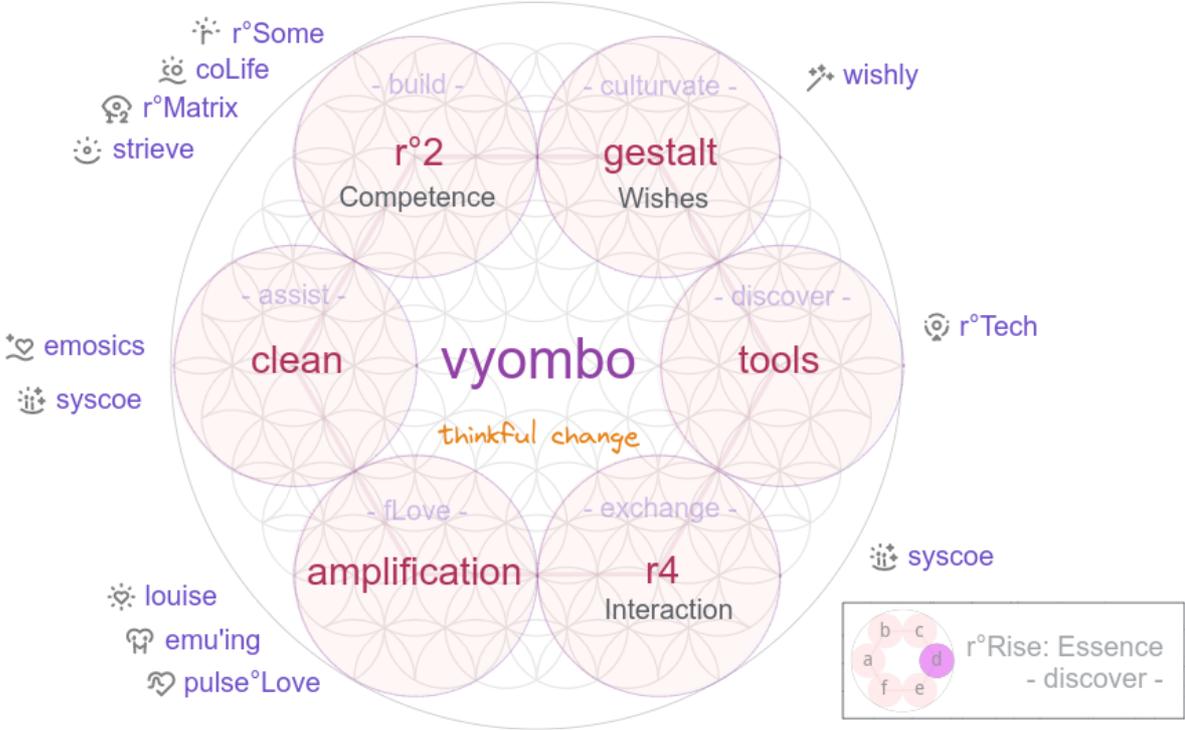

C. Culturvate group, identiful

The r°Rise activities clustered in the group **Group Identiful** are focused on culture and identity: Of shifting culture from an Ego based possessive form of mine, or my value is based on the culture I hide behind, to a shared experience culture.

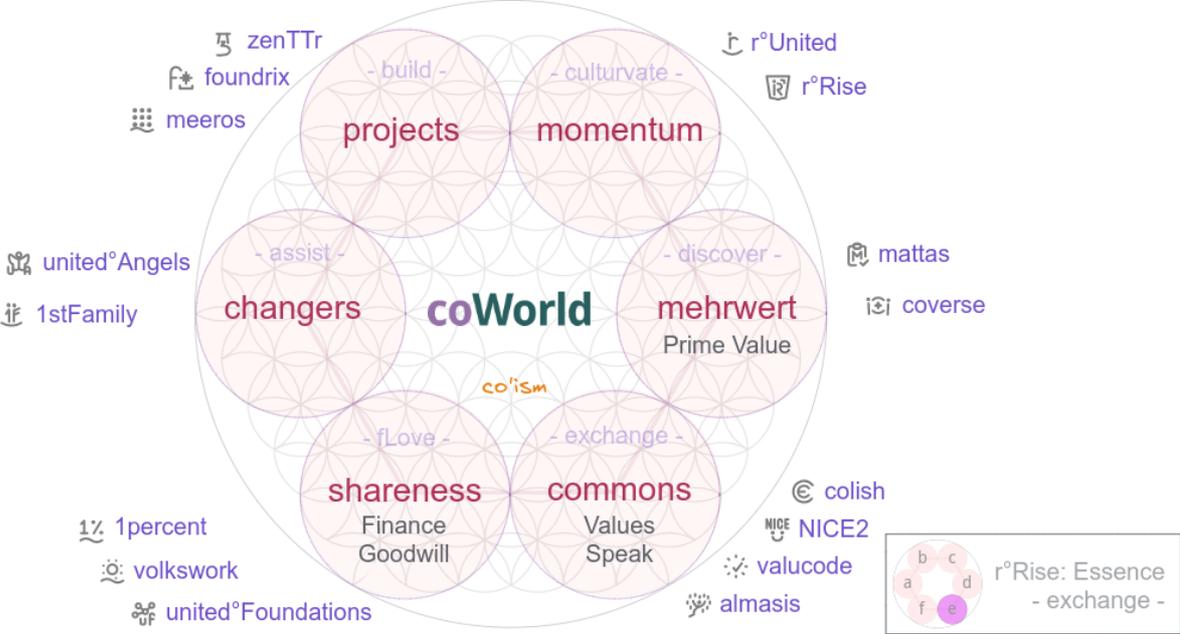

D. Discover group, vyombo

The r°Rise activities clustered in the Group Vyombo are focused on 'gestalt' - of us co-creating the world and future.

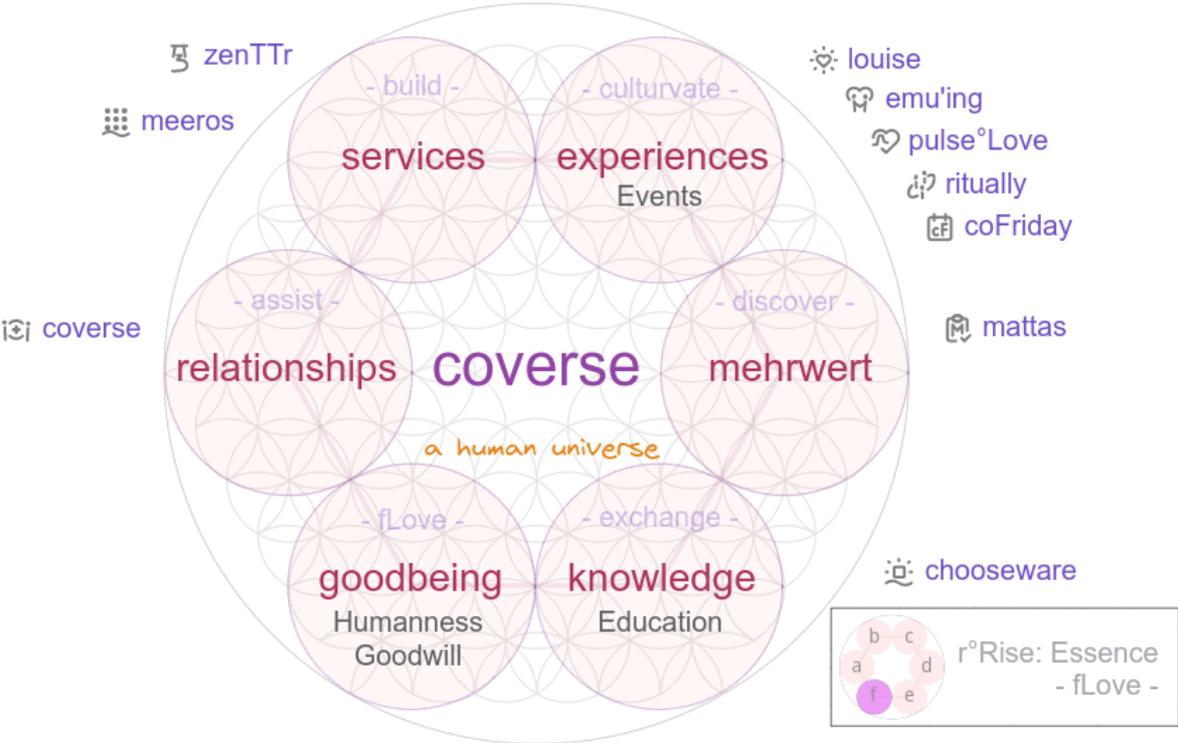

E. Exchange group, coworld

The r°Rise activity cluster **Group Coworld**, is about re-mapping the world to cultural identity.

F. Flove group, coverse

The r°Rise activities clustered under the **Group Coverse** are focused on developing the **coverse** - a humanness universe - of networking people, knowledge, co-sharing and creating real experiences.

9.2 The Power

A silly dream?

Is **atlantis°** a silly utopian dream? No. As a species we do not know what is best for our development. We can however work towards a better future and allow the divine to support us in our growth.

The world is large - billions of people, billions of Egos who want to rule the world, hundreds of countries and thousands of towns - a massive job to be done from a global perspective if we want to allow humankind to shift to an r2 state. However the world is also rich in possibilities and we have a large selection of powers which can support us in empowering mankind.

The following "powers" can be used to empower **atlantis°**.

The power of awareness

We are entering a new Age or Reality (AoR), with virtual reality and the metaverse. Individuals can be informed and be supported in their awareness of reality i.e. of choosing r2 or the converse.

Power of experience

The AsOne community in Japan, as an example, has been living without money for 20 years.

atlantis° can draw on the experience of this and other communities from around the world:

Power of like minded

Around the world there are millions of people who are on their way to an r2 state, who know that there is something else in life or the wish to actively create a better world. Many take part in online and offline communities.

Then there are the 1+ billion people who believe in God. There are over 10,000 communities who feel connected to the earth.

From the perspective of change, **atlantis°** is not starting from scratch. All the above want change in their lives, a better earth, more love in their lives.

atlantis° is about leveraging these networks, to bring people together, to provide events, workshops and seed local c3's.

The power of religions

Religious cultures around the world were originally built on the original concept of r2 - for more happiness and a better society:

- Buddhism
- Christianity

All of them have local communities, many with traditional r2 values, which theoretically can be accelerated on their path to r2 and be cultivated as conscious cultural communities.

The power of compound

Every seed when it grows into a plant, produces more seeds. **atlantis°** is a bag of concepts, of seeds to be sown.

Individuals who are transitioning to r2 are also seeds. Although a person can theoretically instantly change into a permanent r2 state, most people need several years to let go, to heal themselves, to connect, to acclimatise. By providing a social framework of abundance, this change process can be accelerated. They become **beacons**, seeding change in the people and the social fabric around them.

The power of culture

The human race is more than a virus spreading out across the earth. It creates culture, and culture is important for humankind. The culture creation process can be levered for **atlantis°** objectives.

The power of concepts

Our language and conceptual awareness is changing. Concepts of other universes, of other worlds, realities, life, intelligence, magic, are now part of our daily culture. Technological concepts such as "being online, downloading, updates, stacks, apps, virtual reality, metaverse" are enriching our language and how we express ourselves. These extensions to our comprehension allow us to understand the world around us

differently to previous generations. It allows us to reread old scriptures and gain insights, helping us to accelerate in our transition from an r1 world based on lack, angst, power, to a r2 world based on abundance, love and trust.

atlantis° builds on this expansion of understanding.

The power of technology

Automation, robots and artificial intelligence can be used to support the atlantis° operatives i.e. in the mindset training, community building.

The power of climate change

It is expected that the oceans will rise considerably causing hundreds or thousands of communities to lose their homes and the need for relocation. One possibility is to use this as a chance to actively create r2 based conscious cultural communities.

The power of the divine magic

Communities such as Findhorn, AsOne, are flag bearers of abundance showing what can happen when trust is placed in the divine. Any r2 stateful person can tell stories about the magic of abundance happening in their lives. Everyday miracles (unexpected wonders) are normal.

The strategy behind atlantis° is to build an infrastructure which the divine can then use when helping people to migrate to the state of r2.

The power of You

As you are reading this text, then You, yes, You! are a part of this scheme. You have the power to gestalt - to create and change things, both physically and systemically. With a bit of your help you can contribute to the whole and make a longing difference to humankind.

Come and join us.
