1 Introduction

1.1 The Initiative

atlantis° is about upgrading humanity to a new conscious awareness. Of the reality we breath in, of the culture we live, in how we create. Of wrapping the earth in a collective consciousness. It is an initiative to empower humanity, to support its development and enable a different type of growth on this planet.

1.3 Symbols / Speak

Within this document words are used as a symbol for a thought, a concept, an idea. Due to the limitations of our language, some symbols have multiple meanings, with visual and perhaps "negative" emotional anchors. An example is the word "God" - For some it is the divine, for others it is an old man on a throne who throws people into hell. There are also concepts which the Egi - the chatter box within - also called the Ego or innervoice which is constantly on air -will not like. Depending on your cultural background, your religious upbringing, your education or experience, these concepts might cause the Egi to provoke a strong negative reaction within you. Please remember this whilst reading, to look past the symbol for the contextual meaning, to read the document from a neutral point of view without judgement, with equanimity. Follow your intuition or gut feelings.

2 General

2.1 What do we want?

What do we want as a race? What is best for us?

It can be postulated that as a race we live in a box of concepts, that we cannot see outside this box, that we do not really know what is best for our future. Limits such as to stop artificial intelligence(AI), limit wealth to a specific amount, are nearly all angst based, Egi triggered. It can be postulated that there are other ways of living, of coexistence, which have not as yet entered the mainstream of our awareness.

atlantis° does not try to answer the above question. We accept that we do not know what is best for the human race.

2.2 Trust

Placing trust in the divine is fruitful.

atlantis° uses this knowledge as a core component in its strategy.

2.3 Creating A Contextual Framework

We know that the more we open up to the divine through our intuition, the more love, abundance, better life experiences, come into our life.

We also know that:

- People have to come together to enjoy life to the full.
- That the noise from the Egi (Ego) needs to be turned down.
- That diversity is important for the healthy growth of systems.
- That experimentation is important.
- That we are a creative race.

and lots of other awareness topics - See the separate document *atlantis° Awareness*.

These awareness topic form a contextual framework - a collection of things which are important - similar to the plot of a film where the main events are defined and the rest is filled in.

2.4 Moving Into A Gestalt Framework

The divine needs possibilities to work through people, through organisations, through events, to bring people together, to share, to experience, to extrapolate, to synergise, to form.

Creating a *garden of possibilities* allows the divine to *gestalt* - for creating in the material and systemic world - something better.

2.5 Planting The Garden

atlantis° is about planting and fostering the *garden of possibilities*, so that it can be used as an accelerator to shift individuals to a state of r2.
